

10 questions to ask before you decide on your birthing centre

1. Is the centre accredited by JCI (USA)?

Moolchand has been accredited by JCI (USA), the global benchmark for excellence in healthcare. Moolchand has complied with 1,884 JCI standards 3 times in a row. Only 8 hospitals in India have obtained this global gold standard multiple times.

2. Is pricing fair and transparent?

Moolchand Pricing is completely transparent with no hidden costs and does not change based on your doctor or who you are! What's more you will save 10-20% versus our peers.

3. Is maximum comfort for mother and baby ensured?

At Moolchand you have access to sound proof labor rooms (LR) that minimize maternal stress. You can also choose to deliver in an environment of luxury & comfort by opting for our Labor Delivery Recovery (LDR) suites. Our nursery is co-located with LR/LDR to minimize risk of infection.

4. Are multispecialists available to handle complex issues?

Each pregnancy and delivery is different, and problems such as gestational diabetes, non maternal complication may arise. When complications occur, intervention by our multidisciplinary team of experts is available 24x7.

5. Is the centre known for expertise in high risk cases?

Moolchand is recognised as the "go to hospital" for complex high risk cases that cannot be handled by others. We hold a record in India of ensuring the survival of a premature baby born at 25 weeks.

6. Is a world class fetal program available?

At Moolchand, we have expertise in conducting highly sophisticated in-utero procedures during fetal development. This helps timely detection and treatment of potentially life threatening birth defects.

7. Is a world class NICU available to handle complications?

Our state of the art Level III NICU is supported by 30+ staff including neonatologists and paediatricians who can manage even very low birth weight and preterm babies. We are recognized as a national referral centre for high risk and complex neonatal cases.

8. Is a world class emergency program available?

In an emergency, immediate intervention by a specialist can make all the difference. Mother's Nest is supported by Delhi's most advanced ER. Our specially trained staff is available 24x7 to address any kind of maternal emergency.

9. Is a NABH accredited blood bank available onsite?

Our Blood Bank is NABH accredited and is located on site. This means that, if needed blood is immediately available 24/7.

10. Are comprehensive imaging facilities available onsite?

At Moolchand, all diagnostic facilities are available onsite 24/7. So you have access to state of the art imaging including MRI, CT and ultrasound in case of an emergency.

More than 100,000 babies have been delivered at Moolchand. Most Delhites have a Moolchand baby in the family. You should too.
